# Your task for the breakouts

- Collate a list of concrete actions YOU can take to help advance / commercialize these four topics, within your company and in our ecosystem at large
- Discuss where our two groups can intensify collaboration / support each other

# Summary of concrete actions

| Action | Target audience | Responsible | Deadline |
|--------|-----------------|-------------|----------|
|        |                 |             |          |
|        |                 |             |          |
|        |                 |             |          |
|        |                 |             |          |
|        |                 |             |          |
|        |                 |             |          |
|        |                 |             |          |

# How can Methods leaders better support Stats leaders?

How can Stats leaders better support  
Methods leaders?

# Session 3

Irrelevant and out of touch? (Leads: Frank, Simon)
